Declaration of competing interest

The author declares no known competing financial interests or personal relationships that could have appeared to influence the work reported in this paper.

Funding

This research did not receive any specific grant from funding agencies in the public, commercial, or not-for-profit sectors.

CRedit authorship contribution statement

Quang-Vinh Dang: Conceptualization, Methodology, Software, Formal analysis, Data curation, Writing – original draft, Writing – review & editing.

Declaration of generative AI and AI-assisted technologies in the manuscript preparation process

During the preparation of this work the author used generative AI tools to assist with writing and debugging code and with drafting and editing the text. The research idea, the model and the algorithm are the author’s own. After using these tools, the author reviewed and edited the content as needed and takes full responsibility for the content of the publication.

Ethics statement

This study did not involve human participants, human data, human tissue, animals, or any other materials requiring ethical approval. It uses only publicly available, country-level aggregate statistics. Therefore, ethics approval and informed consent were not applicable to this research.

Data and code availability

The replication package (data snapshot with SHA-256 checksums, the Python implementation of Panel-DOSE and the scripts that reproduce all results) is available at <https://github.com/vinhqdang/Journal-of-Digital-Economy>. An archived version with a persistent identifier will be deposited on acceptance.
